Kevin,

As we just discussed :

- 1) please include: Tom Uybareta, R3, Chris Militcher and Maria Clark, R4.
- 2) ALSO include Justin Wright, OFA.

Thank you,

Virginia

We will plan to set this up for you. I will make sure Chris is included on future correspondence. I don't think we updated all our contacts to include R4 after the inclusion of the Trunkline/Panhandle projects so thank you for identifying for us.

Virginia: We will send you your requested copies.

Subject: RE: Submission of Rover AFEIS for Co-op Review

Kevin,

We will do our best to get FERC comments given the number of FERC projects w/overlapping and short review timeframes. If FERC would like to assist and help expedite EPA's review of FERC's administrative (draft) Final EIS for the Rover Project, then EPA Region 5 (R5) requests you/FERC arrange for a conference call with EPA review staff: Justin Wright, Headquarters (HQ)/Virginia Laszewski (R5)/Tom Uybarreta (R3)/and Chris Militcher (R4) and FERC's contractor so you/FERC contractor can walk EPA through FERC's administrative (draft) Final EIS/FERC Response's to EPA's DEIS Comments once the staff at EPA HQ and EPA Regional Offices have received the hardcopies/CDs of Rover's administrative versions of the FEIS/Responses to Comments documents.

Please remember to include Chris Militcher, R4 on your emails regarding NEPA review for the Rover Pipeline Project.

Please advise. Thank you.

Virginia Laszewski,

Subject: Submission of Rover AFEIS for Co-op Review

Importance: High

Good morning Co-operating agency staff:

I wanted to give everyone a heads-up email that we plan to distribute the administrative final EIS very soon for the Rover Pipeline Project. We have been working to diligently incorporate all of the formal agency and public comments into the administrative FEIS, and expect that it could be ready for review as soon as Monday next week (May 9, 2016). I know many of you have been busy reviewing NEPA documents for other FERC projects and we do appreciate all of your

efforts here (It's been a very busy couple of months). Assuming that we do distribute the sections on Monday, we would like to have informal agency comments by Monday, May 23.

Because this will be the FEIS, we anticipate providing each of the agencies with the "response to comments" appendix for your agency comments along with the administrative FEIS sections. This should assist your review in seeing where we addressed your formal comments in the EIS itself. Also, changes will be readily visible (track changes feature) so you will be able to see what has been updated in the FEIS from the draft.

If this presents any scheduling conflicts or you have any other concerns/comments/questions please let me know.

Subject: Submission of Rover ADEIS for Co-op Review

Good Morning!

We will be submitting the Administrative Draft EIS for the Rover, Trunkline, and Panhandle Projects today for your review and comment. You will be receiving an email from Kim Sechrist (kim.sechrist@cardno.com) that will provide you access to the individual sections on OneDrive. The benefit of editing the files in OneDrive is it allows for multiple people to edit the document simultaneously. Once you receive the link, you will be asked to create a username and a password and a few bits of basic information. Also, while using OneDrive make sure that you use internet explorer ONLY. You may run into some unexpected issues if you use Google Chrome, Firefox or other internet browsers as they don't work well with the service. Once you have access to the files, please make sure to open the files in Word and not Word Online. You can do this by right clicking on the file you would like to open and choosing "Open in Word". This will allow you to have the full functionality of Microsoft Word, including the ability to see all comments and changes as the review progresses.

Once you are finished editing, just hit the save icon at the top of the document (it will look like the typical save icon with the addition of two green arrows) and it will save right back to OneDrive. Hopefully this will reduce the redundancy of edits, and be a more collaborative effort. For those that have requested CDs, those should arrive at your office(s) tomorrow. Remember to use track changes when editing the documents in Word.

Please have all comments/edits completed by **December 7, 2015**. Please keep in mind that this **is not a public document at this point - it is a pre-decisional, agency working document - and therefore, not subject to disclosure**. Please **do not** discuss the contents with those outside of your agency and Rover. Should you get requests to see what you are reviewing - they should be directed to FERC as the lead agency for this EIS. Also, the only people that have access to the files are those that will receive a link, so if there are other staff in your agency that will be reviewing, please send me their email so that they can be granted access. If you have any questions, please feel free to contact me.
